Zomato Restaurants – Key Insights & Business Recommendations

A summarized view of restaurant trends, customer preferences, and strategic recommendations

40,000+ Restaurants

Bengaluru is one of India's most competitive food hubs.

Online Delivery: 65%

Online delivery strongly influences customer decisions.

Average Rating: 3.69 / 5

Customer satisfaction is mostly stable between 3.5–4.2.

Premium Restaurants: 0.2%

High-end dining segment is extremely small — major opportunity.

Location Trends:
- BTM, Koramangala, Indiranagar are top restaurant clusters.
- These places get the highest customer engagement (votes).
- High density → high competition → need differentiation.

How Services Affect Ratings:
- Online Delivery restaurants have higher ratings (3.7).
- Without online service, lower rating (3.6).
- Table Booking restaurants score highest (4.1).
- Convenience = higher customer satisfaction.

Cost Category Patterns:
- 95% of restaurants are Low & Medium cost.
- Only 0.2% Premium restaurants — but ratings are 4.2+.
- Customers prefer affordable pricing but value premium experiences.
- Premium dining is a big business opportunity.

Business Recommendations:

For Restaurant Owners:
- Enable online delivery & table booking.
- Focus on BTM, Koramangala, Indiranagar.
- Keep pricing between ₹400–₹1500.
- Improve ambiance & cleanliness.

For Investors / New Entrepreneurs:
- Premium dining is under-supplied — strong opportunity.
- Best formats: Microbreweries, Café Lounges, Fine Dining.
- Franchise potential: CCD, Onesta, Five Star Chicken.

For Data Teams & Product Managers:
- Build Reliability Score = Rating × Votes.
- Use geo-clustering to find hot delivery zones.
- Track cuisine gaps to spot new opportunities.
